To whom it concerns

ENGINEERING CONTINUING EDUCATION

Dr. U.K.Dutta of Technomanage Consultants has been regularly conducting technical courses and workshops on behalf of Professional Activities Center of National University of Singapore since the year 2000. His programs are very well received by the participants from oil, gas and petrochemical industries in Singapore and other SE Asian countries and repeated every year.

His program titled "A to Z of Oil & Gas to Petrochemicals", which covers the entire value chain from oil production to refineries and plastics, is very popular in Singapore drawing a good number of participants every year.

We will continue to work with Dr U.K. Dutta in the future.

Regards.

Cheah Kok Keong
